

# A Commitment to Quality and Service

Our global network of sales and support includes over 25 subsidiaries worldwide, and is dedicated to customer service and satisfaction. Our commitment to quality is further underscored with ISO-9001:2015 certification. We conform to CE quality and safety specifications, fully testing instruments at our on-site Compliance Testing Centre.

*European Application and Technology Center, Berlin – Germany*

## Training Classes

Get the most out of your LECO instrument with instrument-specific training classes offered from LECO. Typical classes feature a comprehensive overview of the theory of operation, method development, method optimisation, and proper maintenance for each instrument class. A variety of advanced features are also presented, including quantitation, user library creation, and reporting. Classes also allow for networking opportunities and the ability to learn from other users of our products. Currently available workshops and training courses are listed on our website:

*"Everyone is very knowledgeable (brilliant, if I may say!) and willing to help with any questions/problems. I am amazed at and extremely happy with the high level of service LECO provides."*

EMPOWERING RESULTS

## CS844 Carbon / Sulfur by Combustion

**LECO**  
EMPOWERING RESULTS

## 844 Series – Carbon / Sulfur by Combustion

LECO's CS844 Series will redefine the way you determine carbon and sulfur in primary steels, ores, finished metals, and other inorganic materials. Using extensive customer feedback and innovative engineering, our latest instrumentation takes advantage of our CORNERSTONE® brand software platform, powered by a touch-screen interface to increase usability and lower the cost-per-analysis.

Additional features – such as a high-efficiency combustion furnace, improved IR cell design, rugged design, and available automation – make the CS844 Series a valuable resource for any industrial environment needing accurate analysis of carbon and / or sulfur.

## User-Friendly CORNERSTONE® Brand Software

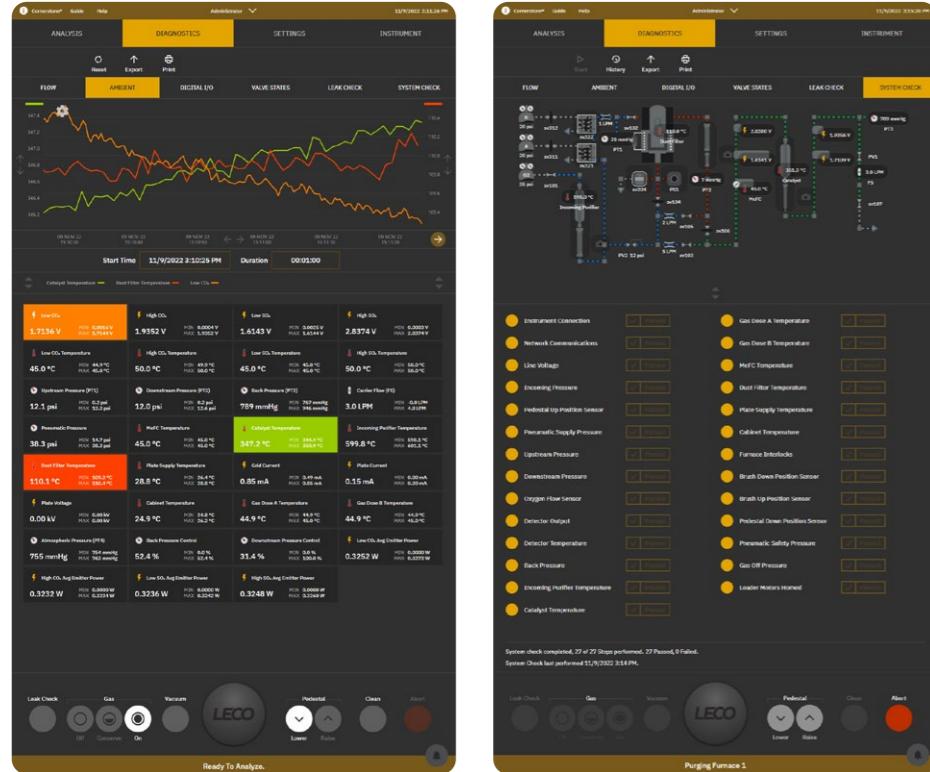

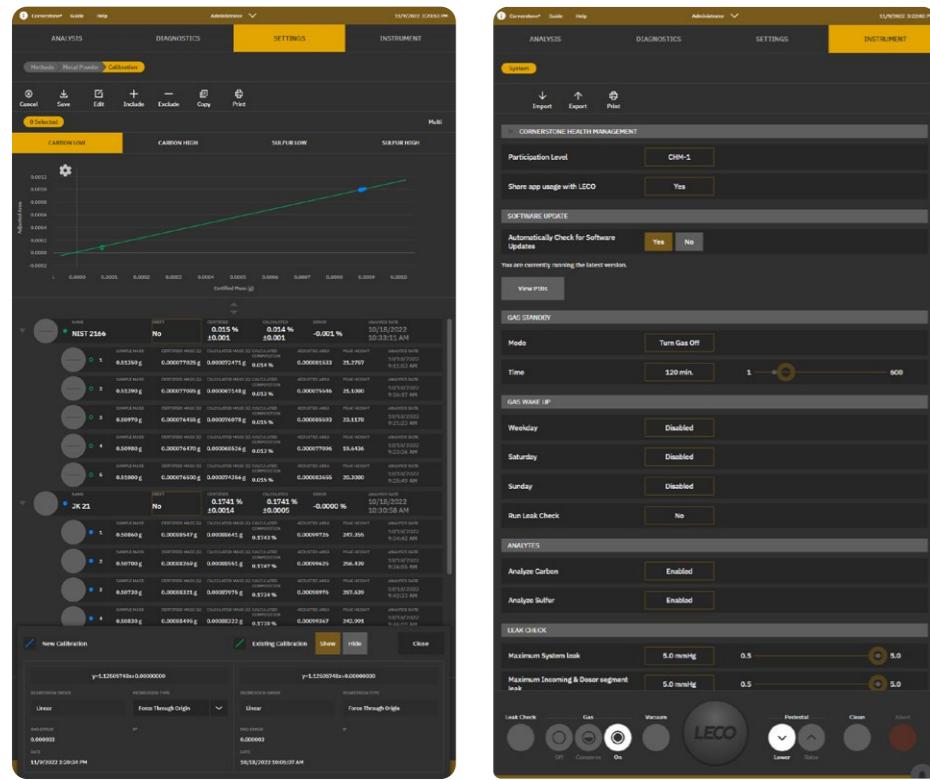

The exclusive Cornerstone brand software with touch interface enables the user to have complete access to analysis control, method settings, diagnostics, reporting, and more in a highly organised and immersive environment. Designed through a collaboration of customer feedback and innovative engineering, Cornerstone allows

the user to conduct all of their day-to-day operations within a single Analysis screen designed for speed and ease-of-use. Our innovative grouping of sample data into sets and replicates simplifies the data output and automatically calculates relevant statistics, alleviating the need for additional data processing.

## Software – Features and Benefits

- The CORNERSTONE® software is divided into four main sections – Analysis, Diagnostics, Settings, and Instrument – for simplified navigation and organisation
- Toolbars, sliders, and drop-down menus make it easy to set parameters for calibration and data processing
- The software also includes real-time ambient monitors, with fully animated system diagrams
- Advanced diagnostic features include a thorough digital on-board manual, maintenance animations, photo illustrations, and screen captures that quickly provide the direction needed without having to refer to multiple manuals
- Cornerstone also supports extended data archiving and flexible reporting capabilities

## Instrument – Highlights and Features

### Features and Benefits

- Fully-adjustable six-axis boom-mount improves ergonomics
- Tool-free autocleaner removal simplifies dust filter maintenance and reduces downtime
- Non-touch interface systems also available

# Models

## Improved IR cell design

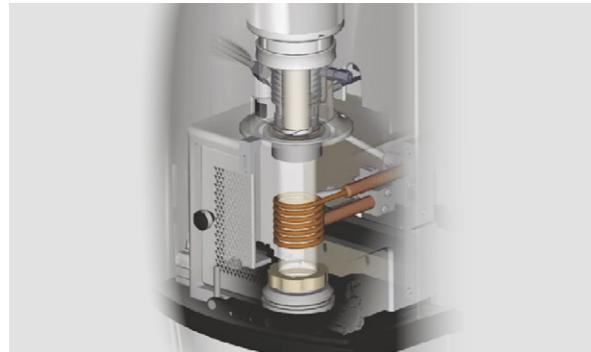

- Thermostatic construction provides increased protection from ambient temperature fluctuations
- Optimised emitter control and detection circuitry improves the IR cell lifetime and long-term stability, resulting in superior accuracy and precision
- Dual-range detection for both carbon and sulfur

## High-efficiency furnace

- Solid-state RF furnace control extends oscillator tube life
- More efficient combustion of a wider variety of samples while reducing dust and splatter
- Automatic combustion tube removal/installation reduces downtime
- Heated dust filter improves sulfur recovery and low level precision

## Additional features and benefits

- High-velocity HEPA vacuum system keeps dust and debris contained
- Optional 10- and 60-sample autoloaders available for hours of worry-free operation
- Robotic process loader available for custom process integration

C844 Carbon Determinator Specification Sheet 209-214-002

S844 Sulfur Determinator Specification Sheet 209-214-003

## Options

Sample Autoloader

Printer

Interfaced Balance Kit

CORNERSTONE® Mobile

Multiple configurations of options are available.  
Please contact your local LECO Sales Engineer for more details.

## LECO – Your Source for Total Analytical Solutions

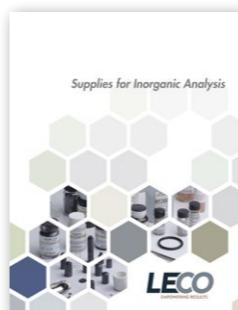

### ONH Series:

#### Oxygen/Nitrogen/Hydrogen by fusion

- Oxygen, nitrogen, and hydrogen by inert gas fusion
- State-of-the-art infrared and thermal conductivity detectors with no moving parts and no manual adjustments
- Custom software interface designed specifically for touch-screen operation
- User-friendly CORNERSTONE® brand software

### GDS900: Atomic Emission Spectrometers

- Spectral range from 120 to 850 nm
- Continuous profile of concentration/thickness
- Large, dynamic range with concentrations from ppm to 100% by weight
- Short analysis time (minutes)

### Inorganic consumables

Get the best results from your LECO instrument by using genuine LECO consumables. Visit [eu.leco.com](http://eu.leco.com) for featured items, specials, and ordering information.
